TURN AI POTENTIAL INTO A CLEAR, PRIORITISED PLAN

VISION AND USE CASE DISCOVERY

Microsoft 365, Copilot and the Power Platform offer huge opportunity, the challenge is knowing where to start.

This engagement helps you align leaders, uncover high-value opportunities across departments, and prioritise practical use cases that deliver measurable results.

Define the vision. Discover the value. Shape what comes next.

WHAT'S INCLUDED

- A shared AI vision leaders can sponsor 
- Real opportunities grounded in day-to-day work 
- Prioritised use cases based on value + feasibility 
- Clear next steps to move into delivery and readiness 

JOURNEY STEPS

Inspire possibility

Tailored examples of what's achievable with Copilot, Microsoft 365 and Power Platform.

Align leadership vision

Define goals, success measures and what "value" means for your organisation.

Explore departmental needs

Surface pain points, workflow friction and automation opportunities across teams.

Confirm next steps

Playback findings and agree the direction, scope and immediate actions.

Prioritise the best use cases

Build a focused shortlist your organisation can act on next.
