- Download for PowerPoint
- Add in Google Slides
- Add in Microsoft Teams
- Add in Webex
- Add in Zoom
- Launch in Browser

0:01 / 4:12

Create a stunning intro for your presentations.

Showmaster™ creates an exciting frame around your presentation during the waiting time and breaks with headlines, countdown, music and more.

Seamlessly integrated into Microsoft PowerPoint, Google Slides, Microsoft Teams, Webex and Zoom.

Showmaster can be used for free.

Showmaster™ can be used for free with a low-key watermark, showing 'Made with Showmaster FREE'. Get Showmaster **PRO** to remove the watermark for professional use and unlock all features.

Showmaster is typically used in trainings, webinars, keynotes, conferences, customer presentations, large internal company meetings, townhall meetings, church services and more.

Features

Showmaster comes with a great set of features. Most of them can be used in the free version as well.

10s

Countdown

Create a beautiful countdown timer until the defined start time of your presentation. Showmaster automatically bridges the time until your presentation starts or continues.

Audience Feedback

Ask your audience to post any input using their smart phones, such as expectations, pre-knowledge or feedback. You can even display their input live during the show.

Animated Headlines

Teaser your upcoming content with meaningful headlines to set the scene for your talk.

Logo Animations

When you select your SVG company logo, Showmaster incorporates it into the animation in an impressive manner.

Themes

New themes will be continuously added to Showmaster. If you would like to integrate your corporate design, you may request a custom theme.

Music

Showmaster comes with a collection of selected music themes which are great to be used before/after presentations.

PowerPoint Integration

Showmaster integrates seamlessly into Microsoft PowerPoint. When you switch to presentation mode, Showmaster automatically steps in.

Google Slides Integration

Showmaster works perfectly with Google Slides. With our Google Chrome Extension, you can even present Showmaster without ever leaving your slide deck.

Customer Reviews

What Our Customers Say

★★★★★

"So much better than just a pure countdown! The animations are looking really nice, I use the tool regularly! I would recommend installing the additional Chrome App, otherwise the animation does not start automatically in presentation mode."

Google Workspace Marketplace | Apr 21st, 2022

★★★★★

"Excellent add-in for lecturers! This add-in for spicing up online or offline courses. Be the opening, I like to use the add-in for cof breaks etc., so that the participants know when we'll continue."
