The Business Challenge

Calvin Capital are continuously looking for ways to improve their operational efficiency, technical capability and profitability.

Nadeem Shafi, Head of IT at Calvin Capital, has a clear vision to drive and support the business move to the modern workplace, which includes supplying Calvin Capital's people with devices they enjoy using, office applications and platforms that help them collaborate efficiently and meeting rooms equipped with video and audio conference technology.

As the reliance on technology increases, so does the need for IT expertise to ensure the smooth running of the organisation on a day to day basis and dedicated skills to help roll out specific projects, all protected with robust security measures.
