CLOUD CONSULT

Protect Your Data

with Cloud Security for Microsoft 365

Are You Protected?

The Cloud Security Assessment and Delivery for Microsoft 365, part of our Cloud Consult portfolio, help to keep your business secure, your data protected and your operations compliant.

We created a staged approach to help you make the most out of the intelligent built-in Microsoft security features which are often not used to their full potential.

The Security Assessment helps you to implement best security practices on a Microsoft 365 tenancy. The Security Features Delivery is the second stage of your security journey. The service helps you rollout enhanced security features on your Microsoft 365 tenancy. Both services are based on Business Premium or Enterprise licence features.

Reduce your costs by adopting best practices and helping your people adapt to a new, remote-working environment.

48% of UK Businesses have a basic skills gap

The most common of these skills gaps are in setting up configured firewalls, storing or transferring personal data, and detecting and removing malware.

Cyber security skills in the UK labour market 2020

<https://www.gov.uk/government/publications/cyber-security-skills-in-the-uk-labour-market-2020/cyber-security-skills-in-the-uk-labour-market-2020>

“Many enterprises have exposed data inadvertently when migrating to the public cloud, mostly due to a lack of experience with cloud-based security.”

Cloud Adopt Business Pack

Authentication Hardening

Microsoft Secure Score Review

Gap Analysis

Security Features Delivery

The Security Features Delivery is the second stage of your security journey. The service helps you rollout enhanced security features on your Microsoft 365 tenancy, based on Business Premium or Enterprise licence features.

Features:

Self-service Password

Conditional Access

Advanced Threat Protection

Mobile Device Management

Microsoft Identity Score Review

Updated Gap Analysis

Security Assessment

The Security Assessment helps you to implement best security practices on a Microsoft 365 tenancy, based on Business Premium or Enterprise licence features.

Licence Review

Review of currently assigned subscriptions and mapping of features available to your users.

Multifactor Authentication

Authentication (MFA) best practice implementation for admin accounts and enabled for users.

Cloud Adopt

Access to the Cloud Adopt learning portal to support tenancy administrators and end users in multifactor authentication adoption.

Authentication Hardening

Includes a setup or update of Azure AD Connect (if applicable), password hash sync, removal of legacy authentication protocols, and account review (active vs dormant).

Microsoft Secure Score Review

Following the above improvements and actioning the non-disruptive and quick additional improvements, the review takes on average 3 hours.

Gap Analysis

Our experts create and share an appraisal to assist with governance and compliance, and to document the risk profile within your business.

Security Features Delivery

The Security Features Delivery is the second stage of your security journey. The service helps you rollout enhanced security features on your Microsoft 365 tenancy, based on Business Premium or Enterprise licence features.

Self-service Password

Reset setup, including banned password list, and distribution of 'how to' guides for business users.

Conditional Access

Policy creation based on your company persona's and what data you have residing in Microsoft 365 (who can access what, from where, and on what device).

Advanced Threat Protection

ATP configuration aligned to best practice to reduce the risk of advanced phishing campaigns.

Mobile Device Management

MDM Windows 10 and mobiles initial implementation. Required for conditional access.

Microsoft Identity Score Review

Following the above improvements around users and their devices to ensure the effectiveness of the security measures.

Updated Gap Analysis

Our experts create and share an appraisal to assist with governance and compliance, demonstrating continuous improvement, and to document the risk profile within your business.
