

**Big enough to transform,  
small enough to care**

→ [www.chmurowisko.pl](http://www.chmurowisko.pl)

As the current wave of businesses evolution is cloud-based, companies need a trusted partner to design and implement a customized cloud strategy.

**Chmurowisko specializes in cloud-native application development, multicloud solutions, and in-depth cloud training.**

**Cloud computing is at the heart  
of every innovation**

# Our cloud services

## 1 Planning your cloud migration journey

Move your business to the cloud through tailored-made strategies that manage all organizational, security and legal issues.

## 2 Building a cloud-native application

Develop applications designed for the cloud. A cloud-native approach increases scalability, productivity and security.

## 3 Optimizing costs & cloud architectures

Audit your existing cloud environment and find a way to optimize cloud consumption costs while improving your current architecture's quality.

## 4 Customizing multicloud environments

Design a customized multicloud, hybrid cloud or multihybrid cloud environment that's tailored to your needs.

## 5 Increasing profits with AI & Machine Learning

Use the power of AI & Machine Learning to collect data and transform it into a valuable source of business intelligence.

## 6 Creating your own cloud team with a CVP Program

Empower your team to work independently in various cloud computing areas and with diverse technologies, thanks to a training program that include best practices and special labs.

# Why are we so special?

## → Top-tier multicloud specialists

Dedicated senior cloud consulting specialists, architects and engineers with vast experience, certificates that attest to their skills and a track record of successful implementations are at your disposal.

## → A boutique approach to every project

No matter the size of a project, every client receives individualized attention and a customized cloud solution.

## → Knowledge transfers done right

A comprehensive knowledge transfer managed by our cloud consulting services specialists ensures your team can work independently and develop your project unassisted after our work has finished.

## → Elevate your business

Harness the power of cloud technologies to solve business challenges with our help. We'll improve, optimize, and implement innovative cloud solutions to support your company's growth.
