

Business Central Blueprint

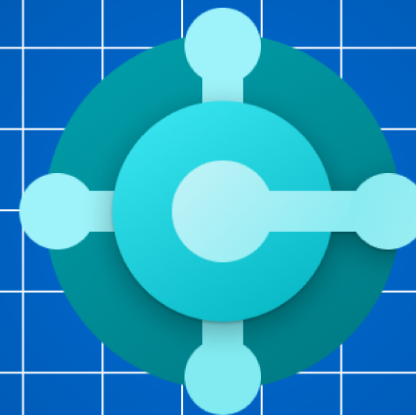

UPGRADE SAFELY TO DYNAMICS 365 BUSINESS CENTRAL

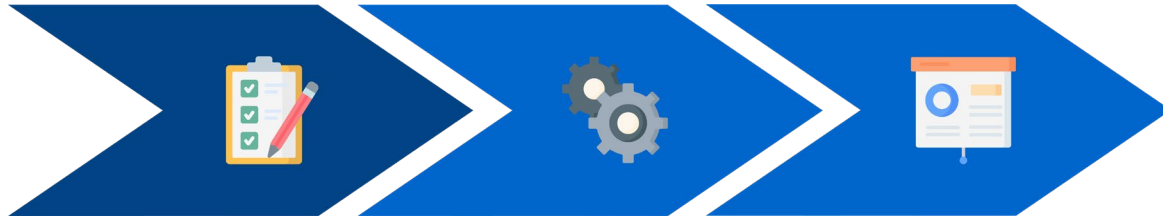

BLUEPRINT WORKFLOW

1. Environment assessment
2. Technical analysis
3. Solution proposal

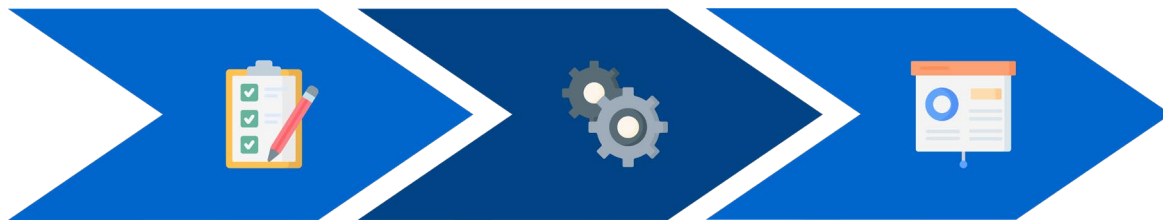

ENVIRONMENT ASSESSMENT

A Business Central expert evaluates your current environment and business processes, and discusses your vision for the future.

The expert will answer your general questions regarding budget, data migration and the methodology.

Time estimate: 2 days

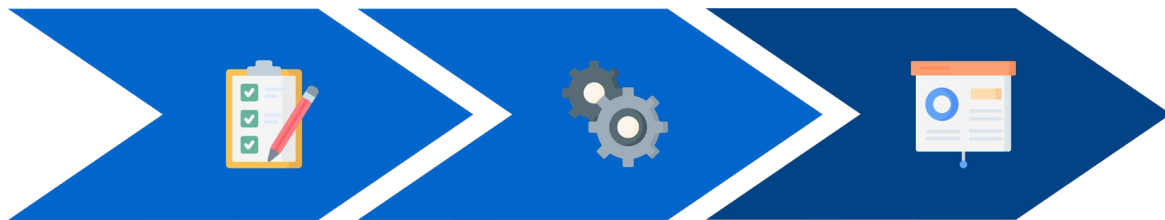

TECHNICAL ANALYSIS

Our expert will be matching the needs with the functionality and tools available in a formal report.

This report will contain standard modules within Business Central, as well as in-house customizations and third-party-tools.

Time estimate: 1,5 days

SOLUTION PROPOSAL

General presentation of all results and recommendations for your organization.

Everything will be summarized in an indicative quotation.

Time estimate: 0,5 days
