

# Your Azure-Native, Software & AI Development Partner

Modernize, transform, scale with certified Azure experts.

## OUR TECH STACK

## OUR SERVICES

### ● Custom Software Development

.NET, Python, NodeJS, Angular, React, including cloud-native and cloud-optimized apps on Microsoft Azure. We accelerate your idea to MVP using AI assistants.

### ● AI Adoption & Innovation

Built on Microsoft Foundry & Azure AI Services, custom LLM deployments, AI agents, intelligent workflows, and document intelligence solutions.

### ● Migration & Modernization

From legacy to cloud, guided by Azure Cloud Adoption Framework (CAF) workshops and Azure Well-Architected Framework (WAF) pillars for lasting quality.

### ● Big Data & Analytics

End-to-end data processing and analytics pipelines using Microsoft Fabric and Azure Databricks, from ingestion to insight.

## OUR WORKSHOPS

### Azure CAF Workshops

Our Azure-certified engineers conduct Cloud Adoption Framework sessions to align your cloud strategy with business objectives and accelerate safe migration.

### WAF Workshops

Personalized sessions mapping Azure Well-Architected Framework (WAF) pillars – reliability, security, cost optimization, operational excellence, and performance.

### Governance, Security & CCMO

Cigen's specialized workshops are designed to review policy enforcement, identity governance, and right-sizing to eliminate waste and enforce compliance at scale.

### Technical Audit

Deep-dive assessment covering performance, security, maintainability, scalability, data quality, and SonarQube/SAST analysis.

From idea to production – CIGen delivers custom software, AI innovation, and cloud modernization on Microsoft Azure, backed by certified expertise and enterprise-grade security.

## WHY CIGEN?

ISO/IEC 27001:2022 certificate

Compliance & Cybersecurity Awareness (Entra ID Protection, Microsoft Intune, Microsoft Purview, Defender XDR, Defender for Cloud Apps)

Microsoft Solution Partner (Digital & App Innovation Designation)

Legacy Microsoft Gold Certified Partner

Speedup Development Processes with GitHub Copilot Enterprise & Claude

LEAN Principles & Culture

## ENGAGEMENT MODELS

### Dedicated Team

A fully embedded team of engineers, architects, and QAs who operate as a seamless extension of your organization – aligned to your processes, tools, and culture.

### Complete Solution Delivery

CIGen owns the full lifecycle from early-stage discovery to post-launch support, ensuring every layer of the solution meets enterprise standards.
