About CIGen

CIGen is a global digital transformation partner focused on modernizing and scaling essential business applications with cloud-powered solutions across Europe and North America.

Our software engineering expertise helps clients optimize their systems to support growth, streamline operations, reduce technical debt, and leverage data for more informed and impactful decision-making.

Proven Microsoft Azure expertise

Our Azure-savvy cloud engineers and architects develop tailored software solutions using .NET Core, Python, Node.js, Angular, React, and .NET MAUI to meet specific business requirements.

Microsoft-certified expertise: Proud Microsoft Solutions Partner with certified Azure developers and DevOps engineers delivering scalable, cloud-first solutions.

Enabling digital transformation globally: our partner list spans over the US, Canada, Sweden, Netherlands, Germany, Spain, Poland, UK, Switzerland, Norway.

Proven delivery across industries: Expertise spans logistics, eCommerce, healthtech, edutech, and more, with a focus on solving industry-specific challenges with technology.

Developing with CIGen

A growing team of **60+ skilled technical experts** drives innovation and creates tailored next-gen solutions.

92% customer satisfaction rate reflects our commitment to delivering excellence in every project.

7% turnover showcases our team's stability and dedication to long-term client success.
