

Control psychosocial risks in the flow of work with Well™.

About Well:

Well™: A female-founded managed partner trusted by over 70+ enterprises, striving to create a world where everyone can feel safe in their workplace. Their transactable marketplace solution, a natively built Teams app available in Australia, serves organizations seeking accessible solutions for psychological safety.

What our customers are saying

"Well aims to put valuable resources in the hands of our leaders – real stories, real conversations presented in bite sized learning to help support all employees, one conversation at a time."

Dan George, Head of Learning, Medibank

What we offer:

Did you know, workplace mental health conditions are one of the costliest forms of workplace injury to a business's bottom line? **Well™ is the first Microsoft Teams tool designed to help control psychosocial risks in the flow of work.** Purpose-built for Microsoft Teams and M365, Well™ compliments Viva's capabilities and aims to boost Microsoft Teams Adoption and MAU.

Bite-sized, actionable, and science-backed content crafted by experts, Well™ is designed for diverse learning styles through video and text with industry-leading engagement rates. Well™ content is hosted on Azure.

Well™ is purpose-built into Microsoft Teams for seamless delivery within the user's daily workflow. Frictionless onboarding and personalized content pathways are designed to help control psychosocial risks at scale.

Harmonized with global ISO 45003 standards for Psychological Safety, Well™ aligns to Safe Work Australia's guidelines for managing psychosocial hazards and is designed to meet level AA of the Web Content Accessibility Guidelines (WCAG 2.1).

It's the accessible, science-backed solution for whole organizations to form daily habits that keep everyone safe.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key Use Cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
