circularo

Who we are

Circularo is an enterprise-grade digital transaction management platform designed for seamless **eSigning**, secure document workflows and full lifecycle automation. Built for businesses, financial institutions and government organizations, our solution eliminates the complexity of paperwork while ensuring the highest levels of security, compliance, and operational efficiency.

Our platform is engineered to support high-volume transactions and multi-entity collaboration – whether you're a growing startup, a multinational enterprise, or a government entity. Circularo helps you **digitize** and manage every step of the document lifecycle, from creation and **approval to signature and archiving.**

## Seamless Integration Across Your Digital Ecosystem

- Native compatibility with **Microsoft Office 365**, **Google Workspace**, **Dropbox** and other widely used productivity tools
- Built-in support for national identity platforms like **UAE PASS** and Nafath for trusted digital authentication
- **Full REST API** access for custom integrations with **CRMs**, **ERPs** and third-party systems

Enterprise-Grade Features That Matter

- Advanced document management, including **full-text search**, **metadata tagging**, **version control** and **audit trails**
- Workflow automation for **real-time document tracking**, **reminders**, and **approval routing**
- Robust security architecture with **end-to-end encryption**, **tamper-proof timestamping** and **identity verification**

Why IT and Business Leaders Choose Circularo

- Legally compliant and globally recognized - approved by TDRA, aligned with eIDAS and **ETSI** security standards
- Scalable for **multi-entity** deployments, used by public and private sector leaders including the Sharjah and Dubai Digital Governments, **EMAAR**, Apparel Group, **MBME** and **Abu Dhabi Islamic Bank**
- Built with flexibility in mind – modular, API-first design supports custom use cases, including on-premise, cloud, and hybrid deployments

From contract approvals and internal sign-offs to large-scale government initiatives, Circularo provides the digital trust, flexibility, and control modern organizations need to operate paperlessly and efficiently – without the technical headaches.
