Safe Harbor Statement

Many of the products and features described herein remain in varying stages of development and will be offered on a when-and-if-available basis.

This roadmap is subject to change at the sole discretion of Cisco, and Cisco will have no liability for delay in the delivery or failure to deliver any of the products or features set forth in this document.

Hybrid work is here to stay but companies are still grappling with user experience

88%

of workers are frustrated with in-office experiences¹

95%

of workers experience video meeting fatigue²

*Source:

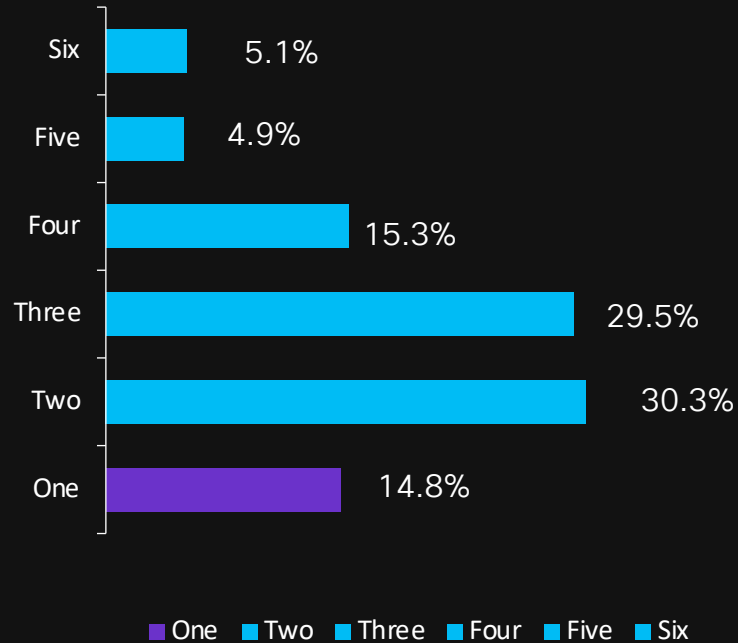

1 The rise of the hybrid workplace. Dimensional Research. 2020.

2. The data behind video meeting fatigue and how to combat it. Dimensional Research. May, 2022.

It's a multiplatform world

Customers expect market leaders to co-operate

Q: How many meeting services do you use?

85%

of organizations support 2 or more meeting platforms

*Source: Cisco Collaboration Devices Decision-Maker Survey, December 2021; N = 1539

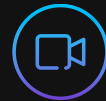

Many room devices have not been built for a multi-platform world

Hard to switch from one meeting platform to the next

Compromised meeting experiences, missing key features

Intelligent device capabilities available for a single platform only

Fragmented layers of device management and analytics

Giving our customers additional flexibility and choice

- Cloud API access
- Access to the full value of Control Hub alongside Microsoft Teams Admin Center

The screenshot displays the Webex Control Hub interface. On the left is a navigation sidebar with sections: Overview, Alerts centre, MONITORING (Analytics, Troubleshooting, Reports), MANAGEMENT (Users, Groups, Locations, Workspaces, **Devices**, Apps, Account, Organization settings), and SERVICES (Messaging, Meetings, Calling, Contact Center). The main content area is titled 'Devices' and includes a search bar, status filters (Online: 210, Issues: 5, Offline: 67), and a table of devices. The table columns are Type, Product, Status, and Location. One device, 'Cisco Board Pro 75', is highlighted. A modal window is open for this device, showing details: Wired (00.00.00.000), Webex Edge (AAA0000A0A0), Stable (RoomOS 10.18.0.9 e756b979c8d), and Microsoft Teams Rooms (MTR 4.13.132.0). A 'Microsoft Teams Rooms' badge is visible over the device's status in the table. An 'Add device' button is located on the right side of the modal.

Type	Product	Status	Location
Rooms & Desks	Cisco Desk Pro	Offline	Ad-hoc booth 2st floor
