DEPLOYED IN 5 DAYS

Azure Virtual Desktop is an Azure native, Cloud VDI that delivers simplified management of single and multi-session Windows desktops that is natively optimised for your Office 365 apps and fully supports legacy Remote Desktop Services (RDS).

PRODUCTION READY
"PROOF OF VALUE"

Everything you need to get started with Azure Virtual Desktop in just a few days

Setup up of AVD as a Greenfield deployment into a new environment to allow you to put AVD to the test.

Comprehensive walk-through of the configuration, use case and ROI, high-level administrative training and answers to any technical and commercial based questions you have.

Finally, we help you with your next steps. From as-built reports, step-by-step guides, licensing and support to full design, deployment and migration services to continue your AVD journey.

CLOUD READY, GLOBAL REACH

Our AVD Essentials provides a fully working environment which helps you become familiar with AVD and understand the benefits it can provide your users.

Start your journey today with the secure and on-demand VDI delivered from Azure.

SAVE TIME, SAVE COST

AVD is powered by Azure, meaning you immediately save management overhead and infrastructure capex.

Microsoft provides the entire infrastructure, security, connectivity and more on the Azure platform.

SCALE ON DEMAND

Once Azure Virtual Desktop is up and running in Azure, you have everything you need to grow, shrink and adapt to your virtual desktop needs without worrying about over or under powered resources.
