AZURE CLOUD-ADOPTION LANDING ZONE
## "YOUR CLOUD JOURNEY THE RIGHT WAY"

AZURE CLOUD-ADOPTION FRAMEWORK

The Cloud Adoption Framework (CAF) is proven guidance designed to help you create and implement the business and technology strategies necessary for your organisation to succeed in the cloud. The CAF provides best practice documentation, and tools that cloud architects, IT professionals, and business decision makers need to achieve their short- and long-term objectives.

WHAT IS AN AZURE LANDING ZONE ?

Azure landing zones are the output of a multi-subscription Azure environment that defines the scale, security governance, networking, and identity fundamentals. Landing zones enable a structured application migration and modernisation foundation at an enterprise-scale. Landing Zones consider all platform resources required to support an organisation's application portfolio and supports infrastructure- and platform-as-a-service deployment models.

CAF NETWORK AND MANAGEMENT DESIGN AND DEPLOYMENT

Our tried and tested 7-day engagement covers everything you need to adopt the CAF across your business and includes hands-on assistance in designing and building your first Azure Landing Zone including:

- Security
- Reliability
- Governance and
- Cost Management.
