

Founded in 2018, CityMaaS brings together over 30 years of startup and technology experience into a single focused business.

CityMaaS is leading through a mission to bring social impact for the disabled community and deliver profits for all businesses around the world.

Co-Founded by Rene and Andy Perkins they have built a team of experts around a core vision that fuels innovation and change in a sector that has been sidelined.

As a disability confident employer, CityMaaS not only champions an inclusive world, it epitomises a vision of equality.

CityMaaS' vision is to personalise the way the disabled community consumes accessibility data and services.

80%

OF CONSUMERS HELP A BRAND PROMOTE THEIR PRODUCTS OR SERVICES IF THERE IS A GOOD CAUSE BEHIND THEM.

FAMILIES OF DISABLED PEOPLE IN THE UK SPEND AN ESTIMATED

£274B

A YEAR

Businesses benefit from improved engagement through increased revenues and decreased customer service costs. We provide a digitally inclusive data and mobility platform to help achieve that vision.

Our cutting edge technology is backed by the UK Department for Transport and EU funding.

CityMaaS was named one of the top EU startups, we thrive to solve the most pressing problems in society through innovation and dedication.

Join us on our journey to make this a better world for everyone.

14 Million

DISABLED PEOPLE IN THE UK ALONE

22%

OF THE UK POPULATION ARE MADE UP WITH PEOPLE WITH A DISABILITY

GLOBALLY THEY SPEND AN ESTIMATED

£8 Trillion

A YEAR

87%

OF GLOBAL CONSUMERS BELIEVE THAT BUSINESS NEEDS TO PLACE AT LEAST EQUAL WEIGHT ON SOCIETY'S INTERESTS AS ON BUSINESS INTERESTS

91%

OF GLOBAL CONSUMERS WOULD SWITCH BRANDS IF A DIFFERENT BRAND OF SIMILAR PRICE AND QUALITY SUPPORTED A CAUSE.

THE CODE FOR MOBILITY

CityMaaS unlocks a world for people with a disability and generates revenue for businesses in multiple sectors all over the world.

As people with a disability say, they just want to be included and we have the code for mobility.

This cutting edge technology allows people with a disability the right information to live a life they crave, just to be included.

The code allows businesses to reach out and embrace everyone in this world, regardless of their uniqueness, and open a market that is valued at £274B.

OUR PRODUCTS

Mobility Map
by CityMaaS

A Global platform that is built for the communities. Users can find out the accessibility information and relevant travel information before the trip.

It enables the business community on our platform to be inclusive and easily searchable by the disabled community and their friends and family.

Mobility Map White Label
by CityMaaS

Born from the EU Horizon 2020 project, our inclusive mobility platform in the form of IOS and Android app can help users to achieve efficient travel and mobility operations to optimise and run user centric operations.

Among many features, users can discover the real-time location of vehicles, plan journeys, online ticketing & payment.

Assist Me
by CityMaaS

Our Cutting Edge technology instantly improves the usability of any website and the compliance with WCAG standard for digital accessibility.

It enables business community to be inclusive and tap into the significant spending power of disabled household that is worth of £274 billion in the UK and \$490 billion in the US.

Codie
by CityMaaS

Our pride and joy in providing personalised digital experience for each of us using cutting edge machine learning techniques.

It revolutionises the theory of UX and UI design. WE have already helped a bus operator in Portugal to be user-centric & inclusive with CODIE technology.
