

Turn Data into Action with Clarity AI

Smarter, faster, and more accurate decisions with the ultimate blend of powerful AI and industry expertise

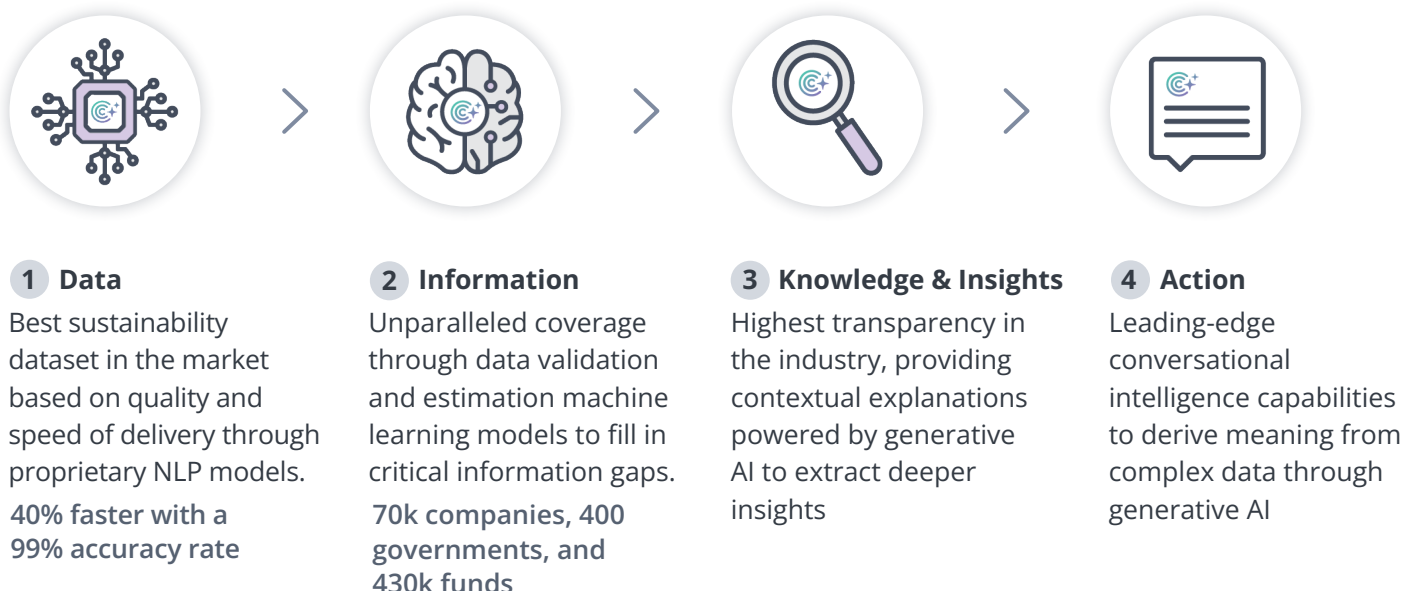

Our solutions combine a decade of experience in AI innovation with expert knowledge and the richest sustainability datasets, setting new industry standards for reliability, flexibility, and efficiency in data-driven action taking.

Only with Clarity AI

- **Make better informed decisions** with less risk, using the most accurate data
- **Be the first to access corporate non-financial disclosures** with faster data collection thanks to proprietary Natural Language Processing (NLP) models
- **Make sense of complex data and communicate clearly** to different stakeholder audiences (e.g., Board, investors, regulators, etc.)
- **Improve your teams' analytics capabilities** and insightfulness
- **Expand your investment universe** and identify new opportunities

From data to action

How AI and human expertise deliver outstanding results at every stage

About Clarity AI

Clarity AI is a sustainability technology platform that uses machine learning and big data to deliver environmental and social insights to investors, organizations, and consumers. Clarity AI's capabilities are an essential tool for end-to-end sustainability analysis related to investing, corporate research, benchmarking, consumer ecommerce, and regulatory reporting. Clarity AI's platform analyzes more than 70,000 companies, 430,000 funds, 400 national and subnational governments, which represents more breadth than any other player in the market.
