

Atlas is an all-in-one platform purpose-built for Microsoft 365, giving employees, clients, and AI instant access to accurate, expert information.

By seamlessly integrating intranet, collaboration, extranet, smart governance, and AI, Atlas transforms Microsoft 365 into a contextual intelligence hub, powering enterprise AI grounded in your knowledge to deliver precise and truly valuable insights.

Atlas ensures your organization maximizes its Microsoft 365 investment while enabling teams to focus on delivering exceptional client experiences and business growth.

## Atlas solves critical business challenges

### Knowledge Challenges

-  Employees can't find what they need quickly
-  Breaking down data and people silos in Microsoft 365
-  No authoritative source of truth

### AI Challenges

-  Poor data quality and lack of trusted, authoritative information
-  Rapidly escalating costs and risks due to scaling AI
-  Aligning AI tools to deliver business value while protected client data

## How Atlas helps

- Enables employees to share knowledge effortlessly
- Centralizes and organizes information from Microsoft 365 and other systems
- Dramatically improves findability with Search and Atlas AI
- Delivers relevant and authoritative knowledge through Microsoft Teams and AI

## Atlas delivers measurable business results

**20%**

Increase revenue by up to 20% by unlocking knowledge from enterprise systems.

**750K**

Save up to \$750K by replacing intranet, extranet, and knowledge solutions, eliminating the expense of maintaining legacy and fragmented systems.

**20 sec**

Customers report findability improvements from 20 minutes prior to Atlas to 20 seconds.

**+30%**

Achieve +30% reduction in repetitive tasks. One customer streamlined their reporting process from 4 days to 1 day per month.

**\$1.5M**

Save over \$1.5M per year on critical tasks, as demonstrated by a U.S. professional services firm.

**5x**

Boost your Microsoft active usage by up to 5x, maximizing your Microsoft investment. Plus, Atlas is eligible for use against MACC.
