

Click2Cloud's Comprehensive Azure Copilot & AI Readiness Solutions

Have you ever imagined having an AI companion that streamlines everything from designing apps to troubleshooting infrastructure, from cloud to edge? **Microsoft Copilot does just that on Azure!**

Adopting AI excellence is like navigating a complex maze. So, **how do you ensure success in this new era?**

At Click2Cloud, our **Azure Copilot and AI Readiness Packages** help you kickstart your Copilot adoption journey to unlock its full potential, driving your AI transformation forward.

Package 1

Envisioning Workshop: Ignite Your Azure AI Journey in Just 2 Hours!

Envisioning Workshop Approach Includes:

- Identify objectives and challenges
- Understand business scenarios and personas
- Explore Copilot capabilities/use cases
- Securely adopt Copilot-AI
- Next step-readiness assessment

What You Will Get?

- ✓ Overall readiness score
- ✓ Defined gaps in each area
- ✓ Implementation recommendations

Package 3

Proof of Concept Deployment: Validate Use Cases & Value in Just 4-6 Weeks!

Our Approach Includes:

- Ensure robust data security controls
- Deploy necessary additional applications
- Provide ongoing training to stakeholders
- Review success metrics using Copilot Dashboard
- Scale up from PoC to Pilot based on results

What You Will Get?

- ✓ Azure Copilot's applications demonstration
- ✓ Feasibility & value demonstration of AI solutions
- ✓ Visualize Azure Copilot deployment architecture
- ✓ Copilot dashboard for success measurement

Package 2

Readiness Assessment: Accelerate Copilot Adoption & Rollout in Just 1-2 Weeks!

Strategic Approach:

- Persona evaluation to know user roles
- Analysis of current SKUs
- Data protection for Copilot deployment
- Assess technical readiness and challenges
- Compatibility & integration check with third-party

What You Will Get?

- ✓ Persona insights, compete scenario, security score
- ✓ Value realization i.e ROI projections
- ✓ Copilot and AI readiness score
- ✓ Financial, business & technical benefits
- ✓ Next-step recommendations on deployment

Package 4

Industry Solutions & Pilot Deployment: Optimize Performance in Just 8-10 Weeks!

Our Approach Includes:

- Industry-specific challenges & opportunities analysis
- AI implementation aligned with business objectives
- Performance monitoring & feedback refinement
- Guidance & support for pilot deployment
- Optimization strategies for AI deployment on Azure

What You Will Get?

- ✓ Azure AI-Copilot ROI maximization insights
- ✓ Expert guidance for pilot deployment
- ✓ Ongoing Optimization help for Azure AI Deployments

Embark on a rapid digital transformation journey with Click2Cloud's industry-tailored Azure Copilot and AI Readiness solutions.
