

Dynamics AX to Microsoft Dynamics 365 with Cloud Intel

Dynamics AX to Microsoft Dynamics 365 (F&O) Migration Assessment with Cloud Intel

Microsoft Dynamics 365, a key innovation, has made a significant impact on businesses.

Is your business still running on an outdated instance of Dynamics AX?

It's time to upgrade from outdated versions of Dynamics AX to D365 for Finance & Operations (F&O)!

Dynamics 365 for F&O connects all processes and departments including **finance, logistics, production, procurement, supply chain, commerce, and business administration** in the cloud to empower customers to run businesses more efficiently, stimulate growth, and achieve organizational agility.

Cloud Intel's Dynamics AX to D365 Migration Assessment

Cloud Intel's assessment helps streamline the upgrade process by evaluating your existing operations, offering clear visibility into the complexity of your **Dynamics AX upgrade, reviewing your objectives, identifying the benefits of the Dynamics 365 platform for your business, and providing cost-effective strategies** for your transition to Dynamics 365 for Finance and Operations (F&O).

Through our assessment, you will receive an Azure cloud migration roadmap and an upgrade process plan to optimize your efforts and manage migration costs effectively. Additionally, we assist with licensing for Dynamics 365, offer a low-code/no-code approach, outline time and cost requirements, and provide guidance for seamless integration with your existing systems.

Key Deliverables

- ✓ Discovery
- ✓ Assessment
- ✓ Business Benefits Analysis
- ✓ Upgrade Scope Document
- ✓ High-Level Migration Strategy
- ✓ Migration Roadmap and Timeline
- ✓ Technical Analysis Reports
- ✓ Financial Overview
- ✓ Clear Next-Steps

If you are considering moving to D365, this assessment from Cloud Intel can help you determine the readiness for the transition and assistance to proceed with migration.
