Click2Cloud's Microsoft 365 Copilot Pilot – **Full Deployment Accelerator**

The Pilot-Full Deployment is a comprehensive engagement service designed to assist customers in assessing their needs, prioritizing Copilot scenarios, and onboarding with an actionable roadmap for the deployment of **Microsoft 365 Copilot.**

Click2Cloud's Unique Approach to Microsoft 365 Copilot Full Deployment Excellence:

- Evaluation of users for testing
- Identification of users in the production environment
- Ensuring appropriate data security controls are in place
- Applying protections to the rest of the users
- Deployment of additional Microsoft 365 apps if required
- Assigning Copilot licenses to users after their accounts and devices are protected
- Providing ongoing training
- Reviewing success measures utilizing the Copilot dashboard

What You Will Get:

- Implementation/deployment guides and tutorials to understand how the tool works and how it can improve workflow.
- Copilot Dashboard access to review success.
- Ongoing support to help users troubleshoot any issues that may arise.

Test drive Copilot for Microsoft 365 and see how it can improve your workplace experience.

Seize the opportunity to transform now with Click2Cloud's Pilot Deployment Accelerator!
