

Migrate your IT Workloads to Azure with Click2Cloud

Description

Click2Cloud helps you migrate your IT workloads to **Azure PaaS and IaaS services** efficiently, delivered through Microsoft Unified/CSU resources. With our AI/ML-based product, Cloud Intel, we assess your workloads and plan **generative AI-based migrations** with minimal disruption to your business.

During the assessment stage, we evaluate your business needs with reliability, cost management, operational excellence, **security, and sustainability** benefits at the top of mind and suggest optimal cloud technologies in alignment with the **cloud adoption framework**.

As per the analysis of the assessment results, we set a timeline based on business needs, workloads, and the utilization of the systems evaluated.

In the **migration stage**, we work with you to build an **Azure landing zone and validate it** so that cloud migration can proceed as planned. You can rest assured that you will seamlessly transition to the cloud with our expert support.

Click2Cloud's **FinOps-Cost Manager Studio** helps you with **cloud cost optimization and management** solutions, which enable you to make informed decisions.

With us, you will get **AI-based, data-driven recommendations** and actionable steps during and after cloud migration.

Why Click2Cloud?

- Microsoft Gold Partner
- Microsoft Industry Solutions Partner
- Leading Cloud-based Consulting Firm specializing in AI-ML, Advanced Analytics, and Data Engineering
- Global Presence
- 100+ Global Clients
- 500+ Highly qualified Data Scientists and Data Engineers

Key Deliverables

- Assessment
- Gen-AI based migration plans
- Migration readiness reports
- Financial benefits plan TCO, ROI (3-5 years)
- Technical transformation plan - (Data, Apps, AI)
- Roadmap and Timeline
- Landing Zone, CAF and POC
- Platform documentation
- Post migration support
