The sustainability Tidal Wave

Are you prepared?

Reducing Scope 3 Emissions

Requires Collaborating with Suppliers & Customers at Scale

ecovadis

1

Sales

Sales teams face an increasing number of sustainability questionnaires.

SCIENCE
BASED
TARGETS

2

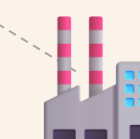

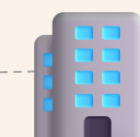

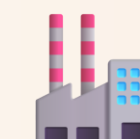

Sustainability

Sustainability teams lack the PCFs to respond, and the primary data for meeting SBTi targets

3

Procurement

Reaching out to suppliers is inefficient and data is fragmented.

**ClimateCamp
simplifies scope
3 emissions
management**
for collaboration
with suppliers &
customers

**Food & Beverages
companies**

Core Value Proposition

How we are helping our clients today

Achieve Sustainability goals with SBTi

Easily manage your Scope 3 emissions

Engage with your suppliers

Comply with CSRD

Seamless Compliance

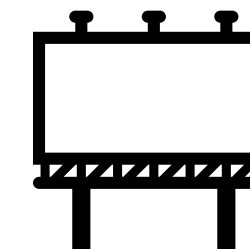

Value Chain Integration

Navigating Carbon Costs in CBAM

Data Access to supplier footprint

Strategic Compliance and Cost Management under CBAM

Customer Engagement for new revenue

Unlock revenue with sustainable products

Help your Customer Transition Faster

Collect accurate supplier data with minimal effort

Supported by supplier onboarding specialists, enhanced with AI. Our proven engagement campaigns help you gain insights into your value chain, increase carbon maturity of your suppliers and reach your supplier engagement targets faster.

⚙️ Customize Agent

Hi, I'm your Supplier Engagement Agent.
I preload suppliers, contacts them to complete climate data, joins calls to collect it, validates quality, and tells you exactly how to use it in your footprint or reporting.
