CLOUD, DATA AND AI MODERNISATION

Azure Enterprise Scale Landing Zone

A standardised Azure foundation for secure and consistent cloud growth

For more information on this, or our wider **Cloud, Data and AI Modernisation** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

Microsoft Azure is the foundation of business innovation, enabling your business to scale securely and at speed.

Our Azure Enterprise Scale Landing Zone deployment delivers a production-ready Azure environment that is built on Microsoft best practices. It establishes standardised governance, security, networking and identity guardrails to reduce technical debt, simplify operations, and support consistent workload onboarding to create a solid platform for migration and modernisation.

Who is this service for?

Mid-to-large enterprises seeking to accelerate cloud adoption, modernise their infrastructure, and establish a secure and scalable Azure foundation for large-scale application migration.

Addressing your challenges

Legacy platforms creating risk and complexity

Governance gaps and inconsistent security controls

No best-practice frameworks causing inconsistent cloud workloads

Expertise in action

An Azure Landing Zone provides standardised governance, security, networking, identity and documentation that is aligned to Microsoft best practice.

What we deliver

· A production-ready Azure Landing Zone aligned to Microsoft best practices
· Standardised governance and security guardrails to avoid scaling roadblocks and reduce risk
· A scalable Azure platform that enables accelerated onboarding and operational efficiency
· More than a decade of Azure expertise to work alongside your team
· Documentation and knowledge transfer to build confident platform management

Outcomes that matter

Establish a production-ready Azure foundation that reduces risk, speeds up delivery, enforces cost control and supports confident cloud adoption.

| Consistent governance and security controls | Standardised patterns for faster workload onboarding | Reduced operational overheads through automation | Avoid reworks and ongoing technical debt | Policy enforcement for stronger compliance posture | Increased confidence in Azure management |

Cloud Direct's added value

With deep, certified Azure expertise, we combine proven enterprise patterns with delivery discipline to build a secure foundation that supports growth and scalability from day one.
