

CLOUD, DATA AND AI MODERNISATION

Azure Landing Zone Assessment

Assess and strengthen your Azure Landing Zone using Microsoft best practices

For more information on this, or our wider **Cloud, Data and AI Modernisation** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

Service overview

An optimised Microsoft Azure platform provides you with a cloud platform that enables your business to save, scale, and innovate.

Cloud Direct's Azure Landing Zone Assessment provides a comprehensive review of your existing Azure environment to ensure its security, scalability, and alignment to Microsoft best practices, delivering actionable insights and prioritised recommendations to strengthen your cloud foundation and support future business growth.

Who is this service for?

Mid-to-large businesses that are seeking confidence in their Azure platform and want to ensure it is secure, well-governed, cost controlled, and ready for future scaling and innovation.

Addressing your challenges

Rapid growth has created cost spikes and risk

Security and compliance posture lacks clarity

No clear roadmap creating slow progress and poor alignment

Expertise in action

Our certified Azure experts deliver a structured Landing Zone assessment with documented findings, prioritised recommendations, and improvement roadmap.

What we deliver

- An assessment against Cloud Adoption Framework and Well-Architected Framework principles
- Analysis of your governance, identity, networking and security postures
- Subscription and management group evaluation with stakeholder review sessions
- Logging, monitoring, and policy posture reviews
- Maturity scoring and gap analysis to build a prioritised improvement pathway

Outcomes that matter

Gain clear insight of your Azure platform maturity to reduce risk, reduce costs, and plan your improvements and innovation with confidence.

 Clear understanding of your Landing Zone posture	 Reduced risk with targeted recommendations	 Improved structuring for lower operational costs	 Clarity on improvements for faster delivery	 Practical roadmap aligned to Microsoft best practice	 Improved confidence in current and future design decisions
