

CLOUD, DATA, AND AI MODERNISATION

# Azure Virtual Desktop Deployment

Empower your workforce with secure, scalable virtual desktops

For more information on this, or our wider **Cloud, Data and AI Modernisation** services, speak to a Cloud Direct Sales Executive or contact hello@clouddirect.net.

## Service overview

Benefit from a modern, cloud-native virtual desktop and application virtualisation platform that empowers your organisation to modernise its end-user computing environment, enhance security, and enable flexible hybrid work.

Cloud Direct's AVD Deployment Service provides a fully guided implementation, aligned to Microsoft best practices, and ensures a secure, scalable, and cost-optimised virtual desktop platform.

## Who is this service for?

Mid-to-large enterprises that are looking to modernise their desktop environment, reduce infrastructure costs, and enable remote work across diverse user groups.

## Addressing your challenges

Operational overheads and maintenance

Limited agility for your remote and hybrid teams

Security concerns, data leaks and compliance risks

## Service deliverables

Our team of AVD experts will build a virtual desktop environment that meets your requirements and empowers your teams.

### What you will achieve

- A secure, scalable AVD platform built to best practice
- Operational, cross-device readiness for hybrid teams
- Reduced infrastructure costs and simplified management
- Improved governance and compliance

### Supporting your goals

- Revenue protection
- Enhanced productivity
- Strong security and governance
- Greater agility
- Resilience and uptime commitments

## Outcomes that matter

From initial setup to ongoing maintenance and management, our AVD Managed Service makes a real difference to your business.

Meet growing demand for hybrid work

Greater productivity and user satisfaction

Improved security and compliance

Enhanced resilience and uptime

React to business change quickly and scale

Simplify operations and retire legacy IT

## Cloud Direct's added value

We combine deep Microsoft expertise with a structured, proven delivery approach to deliver secure, scalable AVD that is built to best practice and empowers your teams, wherever they are.
