

## Modern Work

### Discovery

The Modern Work Discovery helps businesses prepare for the world of Hybrid Work. A Microsoft-funded solution assessment will provide the data to migrate or optimise Microsoft 365 for the needs of an evolving workforce, increasingly dependent on technology. Cloud Direct will work with you to make sense of the data and provide actionable next steps in line with technical requirements, cost efficiencies and security.

### Improve productivity and collaboration

Understand the performance of your current hardware and software estate deployed for productivity and collaboration. This allows you to know the maturity of your Microsoft 365 technology and help identify optimisation opportunities that will create business value.

### Align to Microsoft's best practice

The Modern Work Discovery service takes a ton of data and we help you make sense of it. Understand what optimisation looks like and how you can implement it with best practice guidance from Microsoft.

### Gain confidence to take action

We believe in partnering with our customers and transferring knowledge. Be confident and able to demonstrate the benefits of migrating and optimising your environment in the cloud to business leadership.

## Why Cloud Direct?

-  Microsoft Azure Expert MSP partner (audited annually by Microsoft)
-  CAF and Co-Sell ready Microsoft Partner
-  Cloud first MSP - specialists in cloud solutions
