

Data Intelligence Proof of Value

Accelerate your Data and AI Journey with Microsoft Fabric

Gain immediate insights and demonstrate the value of Microsoft Fabric in just 2 weeks. Our fast-start approach identifies a high-impact use case and delivers a tailored Microsoft Fabric solution, showcasing the business benefits of a modern data platform while enabling advanced analytics and AI to drive measurable business outcomes.

Your accelerated journey to value

Week 1 – Discovery & Design

Identify a high-impact use case, define success measures, and design a lightweight solution.

Week 2 – Deploy & Demonstrate

Configure Microsoft Fabric, upload and model data, deliver a Power BI report, and validate findings with stakeholders.

Your accelerated journey to value

Proof of Value Solution

A working Power BI dashboard powered by Microsoft Fabric, aligned to one prioritised use case.

Feasibility Validation

Configure Microsoft Fabric, upload and model data, deliver a Power BI report, and validate findings with stakeholders.

Success Criteria Review

Assessment of business alignment, measurable outcomes, and adoption readiness.

Business Value

- ✓ Quick Validation – Demonstrate how Microsoft Fabric can deliver immediate insights from your business data.
- ✓ Low-Risk Exploration – Test capabilities in a controlled, limited-scope engagement before making broader investments.
- ✓ Faster Insights – Showcase how data can be transformed and modelled to deliver a business-ready Power BI report.
- ✓ Decision Confidence – Build the evidence base needed to guide investment decisions for scaling modern analytics.
- ✓ Roadmap & Next Steps – Define a pathway for productionisation, expansion, and long-term adoption.
