

# Security and Compliance

Establish and maintain safe and responsible adoption of Cloud and AI capabilities

Building Agent-Ready Enterprises with tailored solutions that deliver

Innovation demands trust. Without robust security and compliance, progress becomes risk. We make protection the foundation of growth, not a barrier to it.

Establish, enforce, and proactively maintain secure and compliant operations with Cloud Direct's expert guidance that ensures safe and confident innovation at scale and at speed.

## Outcomes that matter

### Security as a growth accelerator

Safeguard your AI and cloud innovation with Zero Trust principles and proactive governance, with built-in security that enables fast, confident innovation.

### Resiliency as an advantage

Turn risk into a competitive edge by embedding resilience across your operations. Strong security postures protect against threats while enabling agility and trust.

### Innovation enablement

Have confidence in innovation by moving beyond seeing security as a barrier. With the right controls and compliance in place, security becomes the foundation for bold, future-ready innovation.

## Cloud Direct Solutions

### Microsoft Zero Trust Security Fast-Track

Accelerate your security transformation with Zero Trust principles at its core.

- Implement identity, device, and data controls across your environment to reduce cyber risk and protect against evolving threats
- Enable AI and cloud capabilities confidently with security that scales with you

### Security Posture and Compliance Assessment

Gain clarity and confidence with a comprehensive security and compliance review.

- A full-scale assessment of your current security and compliance posture to uncover vulnerabilities and risks from the outset
- Align with industry standards and frameworks to streamline audits and maintain continuous compliance

### Supporting services
