# Cloud Direct®

Security and Compliance Kickstarts

Security and Compliance Kickstarts

Protect information and data from costly and damaging breaches

Enable remote working and BYOD policies with confidence

Leadership from a trusted Microsoft partner

Safeguard your business

Set a baseline Secure Score immediately

Maximise Microsoft 365 investment

Cloud Direct ®

Kickstart concept

Have an immediate impact on your **Microsoft Secure Score**

Cloud Direct ®

How do Kickstarts work?

Workshop

Roll-out

Knowledge transfer

We will begin with a brief workshop to introduce you to the latest security and compliance components in your toolbox.

Security and compliance policies rolled-out to 20 selected users.

Testing and validation is done to prove the roll-out concept works.

You are up and running with a boosted Microsoft Secure Score.

You are ready to manage security and compliance across your organisation.
