Security and Compliance Kickstarts

Security and Compliance Kickstarts

Protect information and data from costly and damaging breaches

Enable remote working and BYOD policies with confidence

Leadership from a trusted Microsoft partner

Kickstart concept

Have an immediate impact on
your **Microsoft Secure Score**

How do Kickstarts work?

Workshop

We will begin with a brief workshop to introduce you to the latest security and compliance components in your toolbox.

Roll-out

Security and compliance policies rolled-out to 20 selected users.

Testing and validation is done to prove the roll-out concept works.

You are up and running with a boosted Microsoft Secure Score.

Knowledge transfer

You are ready to manage security and compliance across your organisation.

Security and Compliance Kickstarts

Essential Protection

Advanced Protection

Premium Protection*
