

Azure Consultation Package: Data Centre Modernisation

Who's it for?

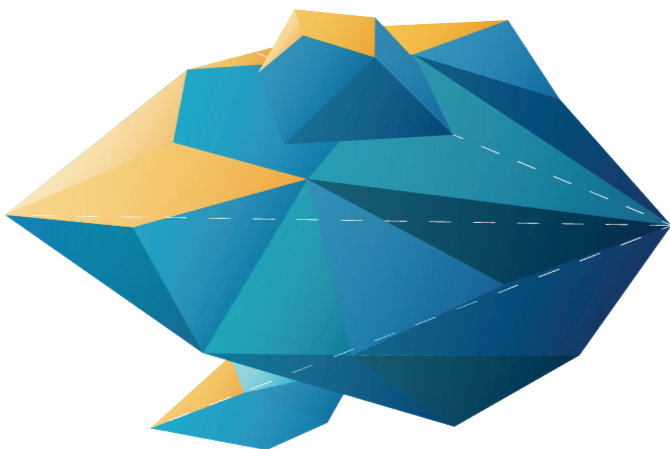

This package is ideal for businesses that want to understand how Azure will support their growth strategies or want to build a business case for moving to Azure.

The package in a nutshell...

It will help you to understand what moving to Azure will look like for your organisation and help plan how you get there.

What will my business get from this?

A detailed report of your current hosting environment. Business case and plan for a secure and optimised migration to Microsoft Azure.

What's included?

We will:

- Assess your organisation's current hosting environment
- Provide a cost analysis
- Help you write a business case
- Build a top-level Azure migration plan

A detailed report of your current hosting environment. Business case and plan for successfully migrating to Microsoft Azure.

Stage 1: Discovery workshop:

We will interview key stakeholders and implement tools to assess your current IT environment.

Stage 2: Assessment and results:

Following an off-site assessment of the discovery workshop findings, the team will present a recommended business case and migration plan to help you understand the right solution and the right way of getting there.
