

Why Cloud Direct for Azure

How do you choose an Azure partner? Simple, work with an expert

Why us? Because we're the experts. But don't just take our word for it.

We're one of only 37 Microsoft Gold Partners worldwide to be recognised as an Azure Expert Managed Service Provider. Which identifies only the top trusted partners to work with. To qualify as an Azure Expert MSP we had to meet the most stringent requirements of any Microsoft program. It was a lot of hoops to jump through. But jump we did.

We level the playing field and help all organisations access enterprise level technology. To put it simply, we help organisations achieve fearless growth with Microsoft cloud. To make your ambitions a reality.

Our Approach

We take the fear out of Azure to deliver end-to-end services aligned with your business goals. From comprehensive consultancy, where we gain an in-depth knowledge of your business to spot the opportunities for IT to enable fearless growth. To our tried and tested six-stage migration plan. Then to our world-class 24/7 support.

Whether you opt for full cloud or a hybrid solution, we'll design bespoke architecture and manage the setup and migration. So, whatever your business needs, we'll help you realise Azure's potential with seamless delivery and ongoing support.

Who We Work With

Industry leaders looking to ignite change and scale their business. We work with the ambitious but paranoid. The disruptors. Those ready to take advantage of the new business opportunities Azure offers. Sound like you?

With Azure, you make your own success, but there are people who can help you along the way. We're Cloud Direct. We're people. Contact us.
