

Teams Voice in-a-Box

Welcome to the new world of integrated telephony

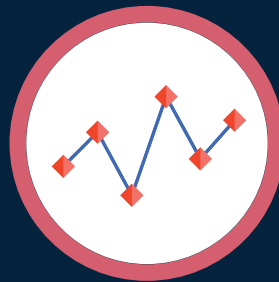

Microsoft Teams is the hub for office productivity, bringing collaboration and flexibility together for the most seamless and secure user experience on the market.

The Teams Voice in-a-Box deployment will get you up and running with a new voice setup quickly and easily. We'll move your telephony across to Teams with a cloud calling plan so you can simplify the way you reach customers and suppliers.

All-in-one platform

Call, chat and run meetings in a single application - and bring AI-powered capabilities for greater inclusivity.

Secure remote working made easy

Enable employees to operate from anywhere with greater flexibility, responsiveness and security. The Teams app makes BYOD policies an achievable reality.

Reduce costs

Rationalise your support agreements, retire third-party contracts - and even save on business travel. Scale with the cloud as you grow.

Why Cloud Direct?

Heritage of working with Microsoft voice technologies - from Lync to Skype for Business to Teams.

Expert capabilities in project management across networking, voice, endpoints and porting phone numbers.

Microsoft Gold Partner for Communications and Cloud Productivity.
