

Embrace Microsoft 365 with confidence

With cybersecurity threats constantly evolving, it's crucial for organisations to keep themselves covered. Security and Compliance Kickstarts from Cloud Direct are the best way to get an immediate return on investment by boosting your Microsoft Secure Score quickly.

We're here to help your business stay protected. Configuring the new security & compliance features in your Microsoft 365 toolkit will enable you to get started with confidence.

Get started with confidence

You know that security and compliance is critical to your business. That's why you're taking no chances. But the tools available need to be configured before they can protect your data, devices and ultimately your reputation from breaches.

Boost your protection

The Secure Score is a tool to give you visibility and control of your secure posture. Being secure and compliant is always a moving target, so begin your journey in the right way. Keep track of it on the Provide™ portal, available exclusively to Cloud Direct customers.

Get started immediately

You've invested in Microsoft 365, so you'll want a return on your investment straight away.

With the right balance between security and productivity, your employees can embrace secure remote working - fearlessly.
