# SmartOfficeNxT Dynamic Workflow Solution

CloudAngles is a global IP-based technology consulting and services firm that enables enterprises across industries to achieve a superior competitive advantage, customer experiences, and business outcomes through the utilization of digital and cloud technologies. As a socially and environmentally responsible organization, CloudAngles focuses on both growth and sustainability in order to create long-term stakeholder value.

WHAT WE OFFER

Our SmartOfficeNxT is a unified M365-based platform to automate corporate processes and dynamic approval for all business processes with enhanced security. You can upload or create new documents from templates, convert documents into PDFs, watermark Notes after approval, provide e-Signatures based on the passcode of the Approver / Reviewer, and create an audit log for each activity. You can access the application from any browser, SharePoint, and Teams. The SmartOfficeNxT platform has many accelerators integrated into it such as Smart Migrate, Smart Converter, Smart iBOT, Smart Integrator, etc. Some of the dynamic workflow modules in our SmartOfficeNxT platform are:

Contract Management, Purchase Management, Loan Approval, Customer Onboarding, IT Request Management, CAPA Management, Grievance Management, Employee Onboarding, Transfer Management, Expense Management, Pricing approval, SOP approval, Leave Management, Correspondence Management, and many more customizable modules

Some of the benefits include:

• 65% reduction in efforts across the business processes.

• 4x faster workflow approval

• Environment friendly – Saved 1,000,000+ papers from being printed to date

• Complete elimination of human error

See what customers are saying:

"We are delighted to have CloudAngles as the workflow solution partner and advisor. It's critical to be able to automate all the manual workflow approval and workflow creation processes without causing any disruptions; this provides us more confidence in making business critical decisions without wasting time in mundane manual processes. Their SmartOfficeNxT platform complies with our stringent quality and security criteria and has built the foundations of a reliable and fast workflow/form approval solution. We never have to worry about anything – whether it's cyber security breaches, compliance audits, infrastructure failures. We know that it's all taken care of.

– CIO, BFSI client
