

GPT-4 is OpenAI's most advanced system, producing safer and more useful responses.

Now with our application, it is integrated to the Teams platform so it easily can be used by all accounts who have Microsoft 365.

The application provides you to use OpenAI easily via Teams Platform.

- It is a messaging extension so you can ask your questions **via our application.**
- You will easily be joining with your **Teams account.**
- It is a new way to get the information what you need **anytime, anywhere.**
- GPT-4 is more **creative and collaborative** than ever before. It can generate, edit, and iterate with users on creative and technical writing tasks, such as composing songs, writing screenplays, or learning a user's writing style.
- Teams GPT-4 can be adapted to your company so as it is AI, you can easily use it internally FAQ machine. This provides people to access every corporation's information which is needed internally. This can be **tools, company policies, birthday of colleague, forms.**
