

# Introduction

Flyte are a Microsoft M365 specialist and Software Development company focused on delivering creative and effective technology-based solutions to a global customer base, across a breadth of industries and sectors.

Our journey started in 2012 as Cloud Cover IT, an IT Managed Services provider, with a mission to empower organisations through technology across the central belt of Scotland, UK. In 2016 we became a Microsoft Gold Partner with the strategic ambition to become the leading Microsoft Consultancy practice in Scotland, known for leveraging the Microsoft technology stack to empower business.

As opportunities with Microsoft and the Modern Workspace have continued to grow, **Flyte** is the next stage in the journey to becoming recognised as a market leader in cloud technology solutions on an expanding, global platform.

Flyte is now part of the Microsoft ISV Success Program

## 4-Day Microsoft Teams App ENVISIONING AND DESIGN Workshop

Join us for a transformative 4-day Envisioning and Design workshop tailored to Microsoft Teams.

Our expert consultants will facilitate this immersive workshop, equipping you with the knowledge, strategies, and practical guidance to unleash the full potential of Microsoft Teams within your organisation. By leveraging the powerful capabilities of Microsoft Teams you can revolutionise team collaboration, communication, and achieve your business goals.

This workshop is the perfect next step for organisations who have already completed an exploration workshop, such as our 3-Day Microsoft Teams App DISCOVERY Workshop. Utilising the outcomes from these previous sessions, the 4-day Envisioning & Design workshop will deliver tailored, in-depth sessions towards developing a project roadmap and adoption/ optimisation plan to enable your organisation to thrive.
