Solutions Partner

Your Trusted Transformation Partner for Modern Data, Cloud, GenAI and Enterprise Solutions!

Cloudalytix Foundations for Microsoft Fabric + AI

2-WEEK READINESS ASSESSMENT & ROADMAP

Modernize and become
AI Frontier Firm

Elevate Your Business with Us

Overview

In 2 weeks, Cloudalytix evaluates your data and analytics landscape, identifies real-time and AI/ML opportunities, and delivers a leadership-ready roadmap to modernize on Microsoft Fabric and prepare for Copilot-enabled analytics.

Ideal for: CIO/CDO/Head of Data & Analytics, IT Directors, Platform Owners

Business Challenges Addressed

- ✔ No real-time visibility, leading to delayed insights
- ✔ Data silos, fragmented systems & inconsistent definitions
- ✔ Unclear lakehouse/warehouse strategy
- ✔ Rising cost and complexity from tool sprawl
- ✔ AI/ML and Copilot goals without data readiness
- ✔ Governance & security gaps

2-Week Assessment Agenda

Week 1 - Discover & Diagnose

01 Envisioning workshop (goals, KPIs, success)

02 Current data landscape assessment (sources, BI)

03 Target architecture + AI opportunity mapping

Week 2 - Roadmap & Align

04 Modernization roadmap (0-30-90 days)

05 Cost, licensing, and skilling strategy

06 Executive presentation & recommendations

Key Deliverables

- ✔ Readiness scorecard (platform, governance, Copilot)
- ✔ Target-state Fabric architecture blueprint
- ✔ 0-30-90 day roadmap with milestones
- ✔ Executive summary deck for leadership & use cases

Business Benefits

Faster Decisions
Improve time-to-insight and action.

Single Source of Truth
Consolidate governed data in Fabric.

Unified Data Estate
Reduce fragmentation and duplication.

Optimise Cost
Streamline tools, process & usage.

Copilot-ready Analytics
Enable safe AI-assisted insights.

Expert Guidance
Delivered by Certified Fabric specialists.

Book a 30-minute discovery call to scope your 2-week readiness sprint.
