Azure Cloud Readiness Assessment

Who Are We

cloudEQ is led by a team of IT professionals who have "sat on your side of the desk" and understand the need to deliver enterprise-wide business results. We have compiled a team of IT experts committed to delivering both business and technology results. We will work with you to evaluate your current cloud model to improve performance, increase security, deliver automation, reduce cost and improve the employee and customer experience.

> **"cloudEQ has led multiple large scale transformation initiatives for me and I can't recommend them highly enough."**
>
> *- VP of Fortune 500 Company*

What We Offer

At the launch of this 4-week assessment, cloudEQ will work with you to understand the business outcomes needed for a cloud migration as well as the technology goals. During this assessment we use our unique cloudEQ approach to thoroughly understand current and future state of the technology environment and provide a roadmap for success on Azure.

The Cloud Readiness Assessment is used to evaluate the IT estate to determine fitness and migration methodology for customer workloads. During this process we also look for ways to shed technical debt, improve resilience, and reduce cost.

Our toolset and experienced team provide in-depth results in a fraction of the time as traditional, manual extraction of data and allow us to empower our customers with recommendations for seamless cloud migration.

Deliverables Include:

- Project Launch Interview
- Executive Summary
- Cost Assumptions
- Basic Architecture
- Resource Requirements
- Change Management Plan
- Continuous Open Communication

Why Microsoft Azure?

Be Future-Ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate Hybrid Seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build On Your Terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust Your Cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
