Microsoft 365 Compliance Center Overview

Gain a greater understanding of the Microsoft 365 compliance technologies to drive improved adoption across your organisation.

Effectively managing an organisation's compliance efforts requires all hands on deck.

Who should attend?

We recommend a broad attendee list, including:
Compliance, **data protection** and **information** workers
Senior leadership who will sponsor compliance technology adoption, and Microsoft cloud ecosystem **project managers** and sponsors.

"This has been one of the most informative and beneficial workshops I have attended. The Cloud Essentials team has a wealth of knowledge and experience in the Microsoft realm which has added massive value to our business."

-- Head of IT, Insurance Company about Cloud Essentials Compliance Overview Workshop

How can Microsoft 365 Compliance Center help to improve your compliance posture?

This overview session, led by a tech savvy, compliance specialist will answer this question and help you to:

Tap into the wealth of capability within Compliance Center as part of your compliance journey.

Demonstrate the technology available and how it can improve/facilitate compliance.

Build a business case for investment in Compliance Center implementation

Understand how to configure Compliance Center to meet your business needs.

Format

- Highly structured, half-day, compliance expert-led session
- Tour and demonstrations within Compliance Center

Outcomes

After participating in this informative overview session your team will:

- Have a **clear understanding** of the technological capabilities available and **clarity** on Microsoft licensing
- Learn where to **create assessments and custom templates** in Compliance Manager
- Leave with **actionable insights** and a **clear set of next steps** for accelerated, improved compliance

Agenda

**Discovery tools** - content search and eDiscovery

Information governance - data retention and deletion

Insider risk management - surfacing risky and anomalous behaviour

Information protection - sensitivity labels, classification and trainable classifiers

Data loss prevention - prevention of inadvertent sharing of sensitive information

Compliance Manager - used to manage the organisation's compliance journey in a central, secure location

What to expect:

Governance, security and technical expertise in concert, for robust, holistic, compliance and security solutions.

Risk-based approach to the identification and resolution of challenges.

Practical recommendations for sustainable compliance frameworks and improved security.

Pragmatic advice, deployment and implementation of technology.

Enhanced understanding of compliance across departments for better buy-in and adoption.

A long-term partner to guide your compliance journey and maximise your Microsoft ROI.

"[Cloud Essentials were] very effective at taking what seemed like a daunting and complex environment and breaking it down into sensible and easily consumable parts. Their depth of knowledge in this space is impressive and as a result of our interaction with them, our own depth of knowledge has increased markedly. I would recommend them with confidence."

-- Richard Simpson, Managing Director of BulkSMS following Data Privacy Assessment and Advisory Workshop

Improve security and mature your compliance position

Few can match the depth and breadth of knowledge of our team. We combine risk and governance expertise, as well as inside out knowledge of Microsoft's eco system and Gold Certified Microsoft technicians.

We're a trusted partner within highly regulated industries, including banking, pharmaceuticals and construction. We understand the complexities, regulatory requirements and information governance challenges our clients face. We use our subject matter and technical know-how to help our clients use Microsoft's technology to reduce and manage business risk.

Delivered through a series of discovery workshops and consultancy sessions, our experts can help to:

BUILD AWARENESS

- Reality check and benchmark your risk, security and compliance landscape
- Explore the art of the possible with Microsoft

CREATE ALIGNMENT

- Assess against best practice
- Validate and recommend a structured approach

DRIVE ACCELERATION

- Develop and implement realistic and practical roadmaps for logical progression
- Advise on maximising value for money
- Help to make informed decisions on technology investments

Your security & compliance journey. Accelerated.

Friendly, responsive, experienced

20 years' experience delivering world class content management solutions for our clients across Europe and South Africa.

A long term partner to guide your cloud journey and maximise your Microsoft ROI.

Agile and responsive team of technical and project management experts

Pragmatic advice, deployment and implementation of technology.

Enhanced understanding of compliance and security for better buy-in and adoption.

In-depth knowledge of the Microsoft ecosystem and excellent software partner relationships to enhance native functionality

> "Cloud Essentials understand the importance of carrying out a project the right way, no matter the size of it. They don't take any shortcuts."
