

Azure Adoption & Migration Services

Our Azure Adoption & Migration Services present a comprehensive solution designed to facilitate your organization's digital transformation through the Azure Cloud Adoption Framework (CAF) and Azure Well-Architected Framework (WAF).

What do we offer?

Cloud Readiness Assessment

- Analysis of existing IT landscape & technology stacks
- Initiation of change management
- Evaluation of overall demand

Optimized Cloud Migration with Azure WAF

- Expert-led migration aligned with Azure WAF
- Detailed migration plans
- Commitment to security, reliability and cost optimization

Beyond Project Scope – Continuous Engagement

- Ongoing support and optimization
- Regular monitoring and analysis
- Sustained partnership

Strategic Azure Adoption using CAF

- Customized adoption strategies
- In-depth utilization of Azure CAF principles
- Expert Azure guidance

Full-Spectrum Cloud Solution Development

- End-to-End solution development
- User-centric focus
- Agile & DevOps practices

Your key benefits

- 1 Tailored strategic approach to meet your specific cloud needs
- 2 Deep Azure expertise ensuring a well-suited architecture
- 3 Business-goal alignment to maximize your cloud ROI
- 4 Comprehensive support ensuring continuous improvement

You receive customized services

- ✓ Tailored cloud readiness report
- ✓ Bespoke cloud roadmap (priorities & milestones)
- ✓ Azure landing zone MVP (minimum viable product)
- ✓ Customized migration strategy document
- ✓ Compiled cloud solution and source code

Let's shape the future together!
