CRM Integrations

THE CHALLENGE

Real estate teams lose high-intent buyers every day due to slow, fragmented lead capture.

Form Fatigue

Long intake forms abandon 70%+ of potential leads before submission.

Slow Response

Buyers expect instant answers — delays lose them to competitors.

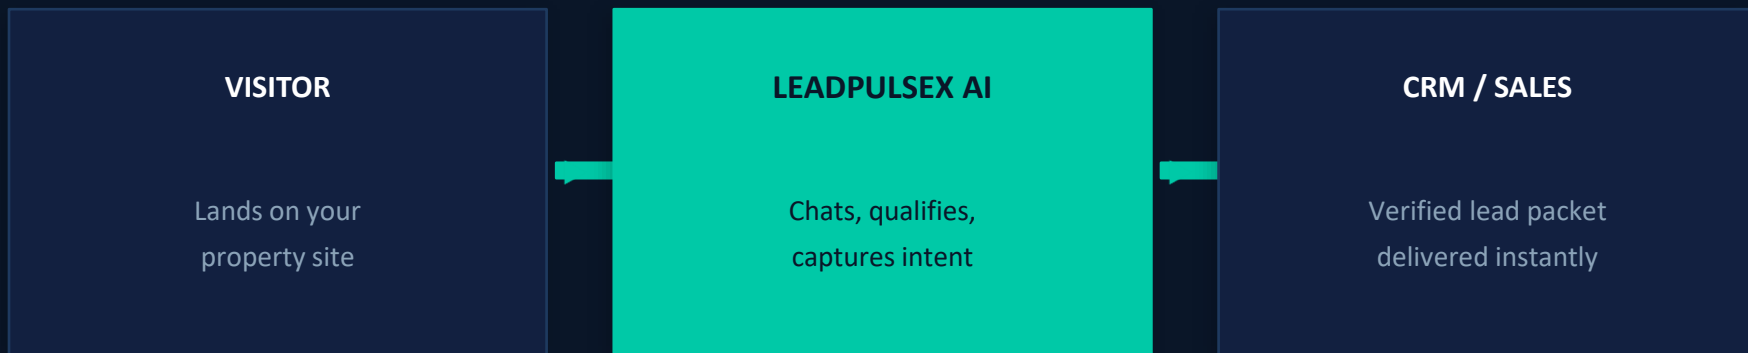

Data Silos

Lead info scattered across email, chat, and CRM — no single source.

Unqualified Leads

Sales teams waste hours on cold contacts with no buying intent.

One AI copilot. Every lead, qualified.

RAG-grounded answers from your property KB — no hallucinated inventory

Progressive profiling captures intent without form fatigue

Hot/Warm/Cold lead scoring with reason codes

One-shot CRM payload: contact + budget + timeline + preferences

KEY CAPABILITIES

Everything you need to capture, qualify, and convert.

Multilingual AI

English/Arabic auto-detect with seamless language switching.

Lead Scoring

Hot/Warm/Cold classification with explainable reason codes.

Smart CRM Handoff

Webhook push to Dynamics, Salesforce, HubSpot, Zoho.

RAG Knowledge Base

Grounded answers from your property/FAQ KB — zero hallucination.

Consent & Compliance

Built-in audit trail for callback and marketing opt-in.

Session Intelligence

Remembers context across turns without bloating token cost.

ENTERPRISE & SECURITY

Built for regulated industries, private deployments,
and enterprise-grade compliance requirements.

AZURE-NATIVE

App Service · Container Apps

VNet + Private Endpoints

CMEK-Ready Storage

RBAC & IAM

Role-based access control with Entra ID integration.

PII Redaction

Optional automatic redaction of personal data in logs.

Audit Logs

Full session trace + cost-per-lead + failure telemetry.

CMEK Encryption

Customer-managed keys for full data sovereignty.

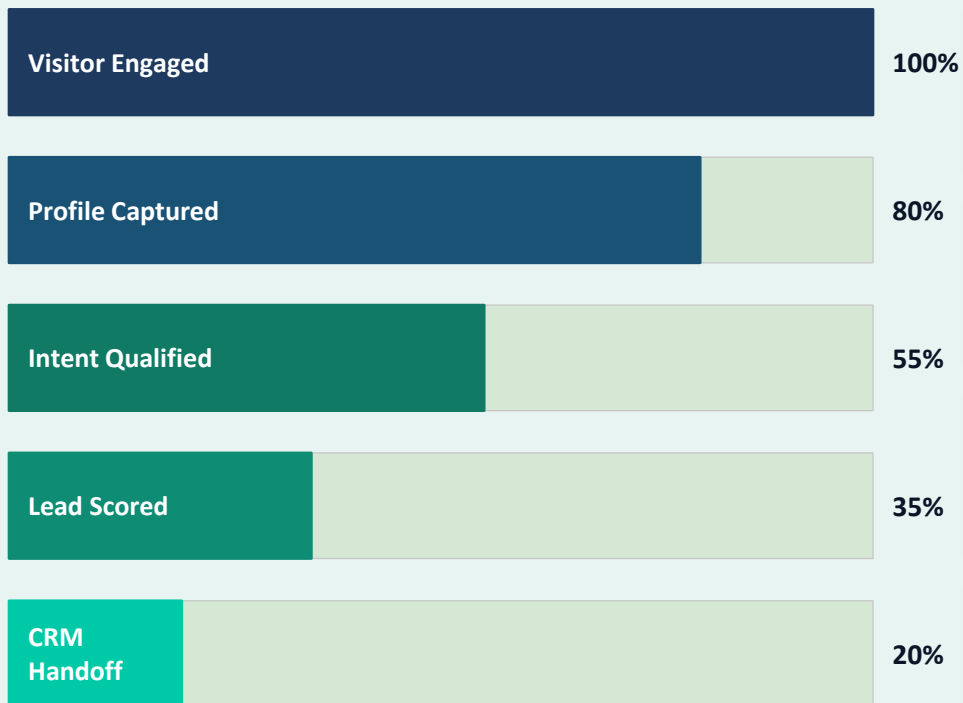

Private Deployment

VNet-isolated, no public endpoints required.

Guardrails Pack

Policy prompts, refusal rules, and safe-answer fallback.

Full-funnel visibility from first message to closed deal.

3× faster

Lead qualification vs manual process

< 60s

Average time to qualified lead packet

Zero waste

Token budget controls per session

Per-session

Cost-per-lead telemetry in real time

INTEGRATION & DEPLOYMENT

Two ways to deploy. Dozens of ways to connect.

Zero-Code Embed Widget

Drop a single script tag on any website. Live in minutes.
