

# Backup & DR: 2-Hours Briefing

**Primary Product:** Azure

## What is it?

Backup & DR on Microsoft Azure 2-Hours Briefing is a service offered by Cloudica that provides an overview of the Backup & DR capabilities of Microsoft Azure. This service is intended to assist organizations in understanding the various features and benefits of utilizing Microsoft Azure for their Backup & DR requirements.

## Who is this service for?

This service is ideal for IT consultants, IT professionals, and organizations who are considering leveraging Microsoft Azure for their Backup & DR needs.

# Backup & DR: 2-Hours Briefing

**Primary Product:** Azure

## What are the benefits?

You can expect to gain:

- a better understanding of the Backup & DR capabilities of Microsoft Azure,
- Overview of how the companies use these features to best backup their data.

## Outcomes of the briefing

Upon completion of the two-hour briefing, you will have an understanding of how Microsoft Azure can help:

- Increase your data availability and disaster recovery capabilities.
- improve your compliance posture (with features such as data encryption, and security measures).
- Reduce your IT costs.
- Free up local storage space and resources.
- Reduce your dependence on physical backup solutions.

## Steps and Agenda:

The two-hour briefing will cover the following topics:

- Overview of Microsoft Azure Backup & DR.
- Features of Microsoft Azure Backup & DR.
- Benefits of using Microsoft Azure for Backup & DR.
- Cost savings associated with leveraging Microsoft Azure.
- Q&A session.
