

Network Security: 1-Day Assessment

Primary Product: Azure; **Pricing:** \$500.00

What is it?

Cloudica's one-day Network Security assessment is meant to provide an overview of the client's current cybersecurity solutions and offer advice on how to improve network security based on best practices and some of the best tools available.

Who is this for?

This service is meant for decision makers and IT leaders within medium-sized companies and larger enterprises who are looking for a solid and safe solution for their network security needs.

Network Security: 1-Day Assessment

Primary Product: Azure; **Pricing:** \$500.00

What do we offer?

Our 15 years of experience offering IT and cloud computing services means that we can efficiently assess clients' networks and report on issues such as:

- Identity
- Security monitoring
- Perimeter security
- Policy management
- Data privacy

What are the benefits?

Following Cloudica's one-day Network Security assessment, clients can rest assured that they are fully aware of their current Network Security situation, know the tools available on the market to improve their security, and have a plan for implementing these improvements.

Steps and agenda:

- Review of the client's current solutions
- Present a report on the strengths, weaknesses, opportunities and threats
- Explain Network Security products on the market today
- Understand how this can help the client achieve their goals
- Q&A session
