

# Get in control /Stay in control

# Protect365

- How many attacks have there been?
- What is the status of accounts, email, devices, users, data and more?
- Are all settings as they should be?
- Attack and defense: direct insights

Expert settings and recommendations can be consulted directly from the app

Available as website and app

Stay vigilant and control your defences against outside attackers.

The Protect365 App by Cloud Life uses the expertise from our best cybersecurity consultants to present you with up to date reports about the state of your defences and the level of attack on your Cloud.

Valuable information presented in a way that is easy to understand and quick to take action on.
