cloudm

Migrate to Microsoft 365

Fast - seamless - secure

Migrate and move your data to wherever you want, whenever you want.

Our enterprise-grade platform is powered by our core migration technology. We are ISO 27001 certified and provide full end to end encryption (AES 256).

Established in 2008 and with over 45,000 customers worldwide, we are the partner of choice when it comes to migrating data, either from external systems or as a tenant to tenant migration within the Microsoft ecosystem.

Our technical support teams offer skilled pre and post sales support, while our simple license structure offers competitive pricing with no data caps.

"I recommend CloudM Migrate to anyone who is planning a complex migration between G Suite and M365 as the product and the team behind it will make it a breeze for you."

Naweed Qadir, Senior Projects and Support Manager, Intueri Education Group
