

# Enhanced Endpoint Management

*A cloud-enabled transformative platform for secure and unified endpoint management*

## Secure and Intelligent

Native integration with cloud-powered security controls and risk-based conditional access for apps and data

## Streamlined and Flexible

Flexible support for diverse corporate and BYOD scenarios while increasing productivity and collaboration

## Maximizes Investment

Maximize your investment and accelerate time to value with fast rollout of services and devices with end-to-end integration across familiar Microsoft stack

**95%**

*Of all organizations allow personal devices in the workplace*

**1-4x**

*Monthly updates are continuous*

**60%**

*of employees use mobile apps for work related activity*

**\$3.92M**

*The global average cost of a data breach*

## Paths to Modern Management with Microsoft Endpoint Manager

**Limited on-prem investments**

Go directly to the cloud and adopt Microsoft Endpoint Manager

**Limited cloud investments**

Move additional endpoints and workloads to the cloud

**Primarily on-prem investments + some cloud investments**

Enroll your Configuration Manager device into Intune for additional cloud value through co-management

**Significant, complex existing on-prem infrastructure**

Connect your Configuration Manager site to Intune for instant cloud value

**Modern Management**

## Modern management

*Automate endpoint management processes with ease and agility using Microsoft Intune.*

## Co-management

*Utilize your existing Microsoft Endpoint Configuration Manager concurrently with Microsoft Intune to gradually transition to modern management when ready.*
