About the Team

As a Microsoft Gold certified partner with several competencies including Communications, Messaging, Cloud Productivity, Collaboration and Content, and Windows and Devices - we're passionate about connecting people through modern technology.

Transforming traditional, antiquated corporate processes, and technology are what really drives us to encourage change within companies. For us, **this starts with communication and collaboration**. When people are empowered with modern workplace collaboration solutions that's when they truly achieve more. We strive for excellence, and that is reflected in the people that are part of our team. From leading executive sessions, working with procurement, and enabling collaboration transformation with people – we've seen it all. The 4th revolution is the Cloud Revolution.

Our Products & Services

Consulting

We have the industry expertise to help guide your team by providing solution design recommendations, and technical oversight. Our proven **CloudDesign** methodology sets you up for success by providing in-depth technical and business objective aligned workshops.

Cloud Technology Enablement and Project Management

Let's face it, cloud solutions integration is still tricky. There are all sorts of things that we've experienced before. Let our experts in Microsoft Cloud technology get everything up and running with **our enablement services**. We also have full Project Management services to ensure your success!

Support & Managed Services

At the end of the day you just want to relax and not worry about the solution. We offer fully managed services in addition to support escalation services with **CloudCare**.
