

CloudShift Viva Connections Deployment Services

The “Viva Connections app” is the central landing page consisting of a personalized company news feed, company resources, general dashboard view, which allows you to stay engaged and informed no matter where you work...

Why CloudShift

CloudShift offers an end to end offering for the deployment of Viva Connection covering all technical activities as well as user adoption activities.

VIVA Connections offers an employee portal that gives everyone access to the resources, information and spaces that specifically interest. Our offering is articulated over an adoption and change management that we jointly drive with the customer in order to engage their employees and get the most of their investment.

Offers or Approach & Deliverables

Preparation and Intranet implementation

Content enablement and Lob connection

Connection Driven collaboration

- Our offering is composed of 3 phases.
- Offering will be implemented over 3 weeks
- Offering cost 6000 USD.

Drive Employee Engagement with Viva Connections

Viva Connections doesn't *create* the intelligent intranet for you; it provides the infrastructure to deliver your intranet to your users in the context of where they are probably already working — Microsoft Teams — and creates a framework for extending your intranet and making it better. Is it the “home site app in Teams”

Why CloudShift

With an extensive employee experience practice, CloudShift can help you envision your desired state - one that brings people, data, and applications together in a single customized dashboard. Our team will work with you to understand your priorities, challenges, and culture to design a solution that meet your needs.

Get started today with
Microsoft Viva Connections

- Build meaningful connections via accessible communities and empower employees to contribute ideas/feedback
- Evolve your intranet into a central hub with easily accessible content and targeted updates powered by Microsoft Teams
- Plan for a customized employee dashboard providing quick and easy access to company resources from any device

How CloudShift can help you in your journey:

Available services depending on your needs and readiness

Evolve and Prepare your Intranet for Viva Connections

- Migrate and leverage the latest components of the **Microsoft 365 Modern Intranet** experience for Viva Connections integration: Modern Portals, Home Sites, etc.
- **Create beautiful, dynamic employee experiences** that are accessible across PC and mobile devices.

Enable your content and LoB Apps for Viva Connections

- Leverage the power of Adaptive Card Extensions (ACE) to **enable critical LoB Apps**, processes and information for Connections-driven employee experiences.
- Identify opportunities to **connect employees in all roles, including frontline workers**, to content and experiences.
- Identify and **build community-driven content and collaboration** leveraging Yammer Communities and Microsoft Teams.
- **Plan for a pilot** of Viva Connections with a group of business users

Enable Connections-driven collaboration across your organization

- **Deploy and scale Viva Connections** to every employee in your organization, on any device.
- **Build an employee dashboard** to streamline visibility into key metrics and employee resources.
- Showcase news and information to the right people with **audience targeting**.
- Explore possibilities with **leadership connection** site deployment
- **Drive adoption** and change management initiative to realize the value of your investment in Viva Connections
