

CLUEBIZ

PACKAGE & DEPLOY

App Library

CUSTOMIZE AND DOWNLOAD PACKAGES FROM THE PACKAGE LIBRARY

Always up-to-date installation packages, optimized for all common software distribution solutions - that's what you'll find in Cluebiz Package Library. All packages are automatically imported into your distribution software at the touch of a button. No more manual work. Search now for the applications you need and start Cluebiz Package Library.

PACKAGE LIBRARY HIGHLIGHTS

- Comprehensive: More than 977 common software packages
- Up-to-date: Always available in the latest versions
- Comprehensive: All packages in all common formats
- Simple: Automatic integration into all major software distribution solutions
- Future-proof: Many packages are also available as MSIX versions
- Budget-friendly: Purchase individually or in attractive subscription models

HOW DOES CLUEBIZ CREATE COMPLEX PACKAGES?

In the Cluebiz Package Library you will find 977 installation packages for the most common apps and programs. As soon as a manufacturer releases a new version, we make the installation package available for download in all important formats, including MSIX, within a few days. This ensures that your users are always up to date.

OUR QUALITY CRITERIA

To make software distribution as easy as possible for our customers, we base our Cluebiz packages on the following quality criteria:

- Does not require an internet connection for installation
- Can be completely uninstalled
- No reboot required
- Unnecessary shortcuts have been properly removed
- Can be used with user rights
- Can be used without Relogin
- Can be uninstalled without issues
- The internal update functionality of the software is disabled
- Package can be uninstalled without original sources
