

COBBLESTONE SOFTWARE GOVERNMENT CONTRACT MANAGEMENT SOFTWARE

THE PROBLEM

Trying to manually manage all stages of a contract's lifecycle can be daunting and time-consuming. Government contract management and procurement professionals need a better way to keep track of key renewal and expiration dates, execute tasks quicker, efficiently manage vendors and more, and improve the overall contracting process within their organization. CobbleStone's contract management system leverages your organizational processes, integrates seamlessly with other mission critical applications, and provides a user-friendly interface, ensuring ease of use, smooth transitions with high adoption rates, and rapid time-to-value.

THE SOLUTION

CobbleStone is the leading contract lifecycle management software dedicated to helping government professionals manage all parts and processes throughout the life of their contracts. Whether you're looking for better vendor contract compliance oversight, easier public records transparency, or simply looking for a contract repository, CobbleStone can help. With our user-friendly platform, contract specialists now have a one-stop solution automating the work and eliminating their stress.

With CobbleStone, Government Contract Professionals have:

- ✓ Software built for government users
- ✓ User-friendly contract repository
- ✓ Automated key date and task alerts
- ✓ Simplified vendor management
- ✓ Intelligent workflows
- ✓ Contract writing with templates
- ✓ Spend control
- ✓ Insurance certificate tracking
- ✓ And more!
